

Maxine Zhou

Product Designer | B2B SaaS | UX/UI

Maxinezhou0302@outlook.com <https://maxine-zhou.com> 07943924015

Summary

Product designer with around three years owning end-to-end UX for complex enterprise and B2B SaaS, including AI-powered products. Experienced in design system governance at scale, coordinating design quality across multiple designers and agencies, and turning qualitative and quantitative research into shipped product. Comfortable across the full process from discovery through delivery, and hands-on with AI-enabled design practice.

Experience

Pangaea Creative (London)

Product Designer (UX/UI)

Mar 2024 – Present

UX/UI Design

- Owned end-to-end design for **AI-assisted contract analysis platform** supporting review of up to 200+ insurance contracts, conducting stakeholder interviews, defining information architecture, iterating design based on usability testing, and delivering dev-ready specs.
- Led UX redesign for internal underwriting platform used by 18 underwriting teams, supporting **2700+ monthly sessions** and 224 hours of active usage per month.
- Used behavioural data (funnel analysis, heatmaps, session recordings) to diagnose the root cause of back-button dominance, delivering recommendations that addressed workflow inefficiency and **potentially saved more than 45 hours per month** across underwriting teams.
- Defined problem statements, user journeys and MVP scope in **cross-functional partnership with Product and Engineering**, grounding design decisions in technical feasibility and business viability.
- Applied AI-enabled design practices day to day (Claude Code, Figma Make) to accelerate exploration, prototyping and specification.

Design System Design

- Established and ran the design system governance model aligning **10 designers across 3 agencies**, leading workshops, knowledge-sharing sessions and usage audits to hold UX quality and consistency across **16 enterprise products**
- Main contributor to the design system migration across 16 enterprise products, **reducing custom components by 94%** (core product pilot) through delivery of 49 tokenised components, full documentation and Storybook integration.
- Drove new component and pattern implementation, running design critiques to capture design team needs, translating insights into scalable, convention-led patterns, and partnering with developers to maintain quality through delivery

Radically Digital (London)

Junior Product Designer

Oct 2023 – Jan 2024

Delivered interaction design and prototyping for client pitches, including a successful proposal for JCDecaux. Role concluded due to team redundancy.

Education

Brunel University London

Oct 2021 – Dec 2022

MSc Integrated Product Design

Skills

Tools: Figma, FigJam, Storybook, Adobe CC, Miro, Jira, Confluence, AI tools (Claude code, Figma Make)

Design: Product Design, UX/UI Design, Interaction Design, Accessibility, WCAG, Design Systems, Illustration
